We wish to call the attention of heads of Families to this celebrated Bread of which we have been appointed Wholesale Agent, at manufacturer's prices for this city and vicinity. The distinguishing feature of Bond's bread is the quality which, after a trial of upwards of forty years is to day the best that there is in the market. This can only be accounted for by an acquaintance with the process of manufacture which leads to believe that there is the very best Flour But ter Lard &c used, and nothing else.

Parents cannot be too careful in the kind of crackers they give their children as many of those offered for sale are vile compositions of poor flour rancid butter, &c

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A Nicholas, President Office 70 Wall st

A Perfect Security against all manner of Fraud or Counterfeiting on Paper— To Prevent Photographs and Anastatic Counterfeits Erasures, Transfers or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by Henry Glynn, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S Mint, Mr Lyman of the New York Clearing House and Meade Brothers, extensive and skillful photographers, 233 Broadway, N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—35 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths 40 cts a lb

For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time

For Southern climates it is excellent, and much superior to any other as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper, while the oils and other chemicals inserted in his paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No 70 Wall street, New York

And previous y in the same article, Judge Hathaway is *falsely* made to say hat 'a native born inh bitant of Maine cannot be a citizen *thereof* from he fact that the Le slature of some other State at some remote period declared that h s an es or should be held as a slave

What we d d say was th s

These extracts from the opinion of the learned Judge show hat in h s opinion a negro is a *man* (see extract 2d) that there is no physical or moral incompa ibility in his being a citizen of the United States and of this State that his color does not exclude hi n and that in the opinion of the same high functionary many free men nat ves of the State of Maine with no incompa ibility of race or co or subject to no disability of pauperism crime insanity or non age, are d pr ved by the Supreme law of the land of al the r ghts of citizensh p and further that the fatal in compatib lity or disab lity or in other words the contro ling reason why a native born inhab tant of Maine annot be a citizen thereof must be found in t e f THAT THE L GISLATURE OF SOME OTHER STATE AT SOME REMOTE PERIOD DECLARED THAT H S ANCE TOR SHOULD BE HELD AS A SLAV

The *Union* it elf vir ually confesses he soundness of our positions and its inabil y to disturb hem by its garbled extracts from our article and by its attemp to stuffle out of sight the point wh h we made aga nst Judge Hathaway's decision and to substitute in its place one wh ch we did not make It says that he Judge has not dec ded that the people of Maine cannot by their Const tution admit persons to the priv ege of vo ing who are not citizens of the United States Who said he had? What w particularly cal ed attention o was the fact that he had expressed the opinion that by the law of the land a co ored person of African descent whose ancestor was brough to th s country and sol l as a slave cannot be a citizen of the United States Now if he cannot be a c tize of the U ited States he cannot be a c tizen of this Sta e for by the federal Constituti n *cit ens of the several States are ct ze s of the United States* The result is hat this State cannot according to Judge Ha haway make a c tizen of a colored person of African descent whose ancestor was brought to th s country and sold as a slave and the reason why he cannot is not because he is a colored pe son of African descent but because at some time he law of a slave S ate attached to h s ences or and made him a slave In this opinion we can ot concur On the contrary, we hold that the r ght (recognized by the federal Const tut on with a single l mitat on in regard to aliens) of each State to declare who may be i s cit zens cannot be restrained by the laws or usages of any other State

Messrs Editors —The admirable lecture on Brazil, from the Rev J C FLETCHER, on Tuesday evening at the Hammond Street Church, reminded me that there is a just out of press, from his graphic and graceful pen, (aided by the earlier labors of the Rev Dr Kidder,) a beautifully illustrated work on "*Brazil and the Brazilians,*" which is highly commended by some of best critics

It would gratify Mr F etcher s many friends, and may aid in introducing more understand ingly to the publ c a very valuable book, if you can find place for a brief extract or two, from the commencement and conclusion of a review of it found in the last number of the New York weekly Tribune ✱✱

"The grounds of confidence in the statements of this work, are derived from the high personal character of the writers, no less than from their wide experience in the Brazilian Empire, embracing a period of twenty years, and with ample opportunities of accurate observation It presents a record not only of the national customs and institutions, but of the historical antecedents of Brazil, its industrial and commercial resources, and its statistical developement The amount of information which it communicates in regard to every thing connected with its subject, is not only liberal but affluent and so successfully have the authors attempted to give completeness to heir volume tha its details might sometimes prove oppressive by their variety and minuteness, were they not rel eved by frequent epi sodes of remarkable attractiveness, and set forth in a lively and flowing dict on

"Among other important topics treated of in this vo um we may allude to the Emperor of Brazil, the Province of Parana the history of San Paulo the river Amazon and notices of he natural h story of the country It shows throug iout the proofs of wide information, quick percep tio and sagacious judgement Mr Fle cher who, we believe, has had the chief share in preparing it for the press is an accurate and agreeable writer and his work does equal credit to his habits of observation and his power of expression

A wri er in the Boston Journal makes the following al usions to the business stagnation in Maine, and talks very sensibly of the importance of employing capital in diversified business Bangor has paid so much attention to lumber that she has neglected almost every thing else and the consequence is that not one half the business is now being done that might be If our capitalists would only invest money in the manufacture of different articles—it would be a very great benefit to the city

Since my last letter I have paid a flying visit to Bath, and found that city to be, compared with former years, a perfect Sleepy Hollow The shipyards were deserted, the streets did not wear their wonted busy aspect, and to one accustomed to see Bath in her prime, every thing looked dismal The prosperity of Maine never received a severer drawback, than it did by the excess to which shipbuilding was carried a few years ago Men with a small capital rushed recklessly into debt and built ships at enormous rates, farmers deserted their farms for the shipyard where they could make double the wages they could on their farms Everybody made money for a season, but at length the bubble burst The shipbuilders were ruined, and the mechan cs were turned ou of employment It was a hard blow for Maine and unless her capitalists and mechanics turn their attention to manufacturing and agricultural pursuits, one from which she will not soon recover

It appears from the list of patents granted during the week, that there is one for "improvement in hoops for ladies' skirts."

RIVERS & DERIOUS' CIRCUS —We copy the following notice of Messrs Rivers & Derious' Circus from the Belfast Journal It will be seen that the editor gives a gentle hint to those editors who vent their spleen on everything, no matter how good, unless it is extensively advertised in their paper

THE CIRCUS The performance of Rivers & Derious Circus on Wednesday, (day and evening) was an agreeable entertainment for some three thousand people Not only were the performances of more than ordinary excellence, but the persons connected with it bore themselves like civil gentlemen and business men [We are not paid for this "puff, and it would have been printed all the same if the company had not gone to the expense of advertising in our columns] The company goes east from here as far as Halifax Our Hancock and Washington county friends, who like this popular amusement, may rely on what we have said

After witnessing this exhibition we can safely agree with friend Moore, that it is an agreeable entertainmen The tumbling and riding, is quite equal to anything we have seen here, and the balancing and swinging is superior to any performance of the kind we have attended

KANSAS The Lawrence correspondent of the St Louis Democrat accuses the U S troops stationed at Lawrence of very disgraceful conduct He says

"They have recently adopted the practice of riding about town and calling on all the ladies they could get an introduction to, and sometimes they have called unceremoniously without an introduction They are usually drunk when upon this gallant mission In most cases, these intruders have been very coolly and scornfully rebuked

But a darker chapter is untold A few nights since, between 12 and 1 o clock, one of the officers called at a house on Massachusetts street, and attempted to force an entrance —He tried the door, then the windows, then the door again None but ladies were in the apartment They were greatly alarmed, and cried out, 'Who s there?' He answered, in a low vo ce, '*Me, me*—a friend 'Go away , who are you, about this house at this hour of the night?' she cried Let me in, he replied, 'You won t be hurt She again told him to leave immediately, and cried at the top of her vo ce for help For several minutes he continued to try the door and windows, and the ladies continued greatly alarmed, and remonstrated with him with a'l the force indignant womanhood could command One of them had found a Sharp s rifle, and made towards the door with it, fully determined to shoot him if he did not leave As she neared the door, another lady cried out 'Be quick blow h s brains out, at which the officer hastily left, and was not seen again The ladies say they had never fired a Sharp s rifle, and did their utmost to discharge it then, but were unable to discharge it in the dark Since that time they have been pract cing with both a rifle and revolver and they now declare if the wretch ever appears again, they shall greet him with cold lead at the door

The Washington Union says "We are informed that when the Governor s opinion was asked on the voting qualifications, he invariably replied—we quote his exact language—'A previous residence of three or six months, and that the same qualifications should be adopted in the constitution in regard not only to that, but to all future elect ons

The American Home Missionary Society have just appointed five missionaries for Kansas, in addition to those already in the field four of them from the last senior class at Andover, and one a German, to labor among his countrymen around Humboldt 75 miles south of Lawrence It is sa d the Germans are fast occupying this part of the territory, there being no less than 8000 or 10 000 already there

THE CROPS The Terra Haute (Indiana) Express remarks

"Every where the farm yards are fil ed w th large stacks and the barns literally groan under the support of the heavy loads stored away in their mows The gra s crop is splendid and the weather is propitious for gather ng it in —But the corn—who ever saw such corn? For Harrison Prairie, unrivalled in the production of this staple, never bore upon her swelling bosom so flattering a prospect We heard one farmer say he would gather from seventy five to eighty bushels per acre The stalks look almost like young trees The groun l is entirely shaded by the flagging leaves and the whole field presents a living mass of luxuriant green

The Freeport (Illinois) Journal e timates the product of wheat this year in Stephenson county at 1 333 000 bushels from 66 000 acres under cultivation The t wn of Buckeye alone will yield 100 000 bushels Calling the yield a million and a quarter, at 75 cents a bushel the crop will be worth $937,000 They think the quantity which they can export as surplus will bring $737 000 An estimate is then made of several other articles of export from agricultural sources, the whole aggregate of which will amount to near one million of dollars Pre ty good for one county, certainly

The Lancaster (Pa) Times corrects its statement relative to the potato rot in that vicinity which it says has appeared but in a few places and in such a mild form as to cause no apprehensions whatever of material injury to the crop, which is expec ed to be un isua ly large and of a superior quality Dealers in this city have increased the price of pot oes within a day or two in consequence of alleged ravages of the potato disease

A correspondent of the Newark Advertiser estimates the wheat crop of Illinois this year at 35,000,000 bushels, and the corn crop at 290 000 000 , and, says the writer I am persuaded the conclusions are correct as almost any one who should see these extensive fields would be of a like opinion

The same writer says of a farmer in Marshall county, where the wheat averages from twenty-two to twenty five bushels to the acre

He would like to sell at once and if we will give him ninety cents per bushel he will engage to deliver it all at our mill in ten days But that is the starting price for the harvest, and the immense crop promises that we can buy shortly for less money That is all we can offer for th s week the next must take its chance, and eighty five to eighty cents will shortly be the mark There are fields here which for several years have alterna ed wheat and corn, and there is yet no apparent d minution in the crop I know of one field which has this year the eighteenth consecutive crop of corn upon it and I doubt not this will be as copious as any

IMPORTANT R ROAD DECISION Judge Wright of the New York Supreme Court, as we learn from the New York Times has made an important decision relative to the rights and liabilities of railroad companies and property owners in cities The decision was in the case of James Brown v the Troy and Boston Company, and made the following points

1 That railroads are not *per se* a public nuisance That Municipal Corporations have a right to use public streets and allow them to be used in any manner they see fit, not inconsistent with their original dedication That the Troy and Boston Railroad has the right by Municipal as well as Legislative authority, to lay down a track in Adams street, Troy

2 A tax payer and property owner cannot wield the writ of injunction against municipal authority (as a company seeking to lay a rail way track in a public street of a city under permission of the Common Council,) for a prospective injury to the community It must appear that *he* will suffer some *special injury* before he is entitled to this remedy It is the province of a State thus to protect its citizens from invasion of their corporate rights A private action cannot be maintained to redress a public wrong The property owner must await the completion of the work, when if found to be a public nuisance, it can be abated by civil or criminal proceedings

It is said the case will be carried to the General Term

Messrs Lewis Allen of the Warren Bank, Gale f the Haverhill Bank, and Turner of the Grand Bank, were appointed a committee to nominate a committee to report a list of Directors for the action of the next meeting and subsequently reported the names of Messrs Corney of Lowell Ripley of Greenfield, Whittemore of Cambridge, Baldwin of Brighton, Lowe of Gloucester, and Western of Danvers, to act as said nominating committee The report was accepted

Interrogatories were propounded, views freely interchanged, and a cheerful and confident spirit prevaded the meeting Delegates from several banks, which have not heretofore subscribed gave assurances that favorable action may be expected from their respective boards and a call for a meeting to organize the bank will undoubtedly soon be made —*Boston Journal*

PEARL FISHING DOWN EAST Mr Z R Addition the gentleman who submitted a lot of native pearls to our inspection a fortnight ago, returned again from the Down East pearl fishery in Androscoggin county Mo , yesterday He reports that his first experiment in which he obtained some twenty or thirty dollars worth of the precious gems during his fishing excursions so excited the people of the neighborhood that all classes of people forsook their employment and engaged in the search for pearl clams Farmers lawyers and ministers were all up to their middles in mud and water, and even during the darkness of night they forsook their beds for the bed of Bingham brook where they groped and delved by the struggling moonbeam s misty light, and their lanterns dimly burning

The result of their fishing have proved that their labors would have been more remunerative if they had been bestowed upon the neglected hay crop The pearls were few and far between Mr Addition found about fifty dollars worth which he exhibited to us and he expressed to us a determination to resume his regular occupation in Abbington, and leave others to cool their enthusiasm and their extremities in the fresh water streams

TO THE DAILY WHIG AND COURIER

On account of the storm we are without our usual despatches.

DARING HIGHWAY ROBBERY.—Mr. I. P. Goddard of Pownal visited Portland, on Tuesday with produce for sale: he left the city rather late in the evening upon his return home, having with him about $100—93 of it in his pocket book, and some five or seven dollars in his wallet. Immediately after leaving Freeport corner and when he had just turned from the Portland into the Pownal road, three men sprang from the bushes, one seizing the horse, and the other two coming up to the wagon,—neither of the scoundrels spoke or made any demand for money. Mr. Goddard jumped from his wagon, and in so doing, threw his wallet a distance from him into the grass, and this was recovered on Wednesday morning with the money untouched. The robbers however got the pocket book leaving the money, but leaving the book and papers in the road, and these were also recovered on Wednesday morning. Mr. Goddard had a sharp fight with them, knocking one down twice, and he received several stabs —none however that are considered dangerous. He was able to reach his home after the robbery, which took place at 11 P. M. [Brunswick Tel.

Walker was using the army as a *posse comitatus*, when the civil authorities were unable to make arrests. The 1500 troops now in Kansas will remain there until after the October election

A daily mail has been established between Kansas City and Lecompton, and a tri-weekly between Lecompton and Marysville.

SAD ACCIDENT Mr. Richard Perley, a painter, about 50 years old, was killed this morning by falling from a platform at the Cemetery, while engaged in painting the new gate. He was found about 10 o'clock, lying at the foot of the ladder, with a bad bruise on his face, and bleeding at the mouth. He was able to talk for half an hour, when, on being removed a few feet, he died almost instantly.—*Watervile Mail*

CARRIED BACK.—Officers Bicknell and Adams, from Bangor, arrived here yesterday to take in custody Thomas Wood and John Pratt, who had been arrested by our City Marshal, and who will be taken to Bangor to-day for examination, on a charge of conspiracy and cheating by false pretences.—[Portland Adv.

The city of Savannah is fast getting to be an extensive wheat market. From the 15th to the 19th August, the receipts of wheat in that city reached the enormous amount of 173,864 bushels, of which 199,088 were received by the Central Railroad.

West Point is now the head quarters of the U. S. Army, it having been removed from New York about a month since. Gen. Scott has, therefore, his office in the Academic building, where he transacts all necessary business.

PIANOS—PIANOS

IT is evident to all who hear *Edwards & Co's* PIANOS that Chickerings' are *not ahead* of all others. It is also evidence in this case that Edwards & Co's have taken the *first* premium over all competitors, wherever they have exhibited them, including the Fair at Portland in 1854, where they took the first premium over the celebrated Chickering, for Pianos having the best tone and action.

I have an assortment of 6, 6½, and 7 octaves, now at my Rooms, where I invite all (whether purchasers or not,) to see them.

For sale at the lowest factory prices.

I have a good Seraphine for sale cheap.

THE LUXURY AND PROFIT OF HONEY MAKING.

☞ Torrey's Bee Hive.

THE, subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

American & Foreign Patents,

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State Street, opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

[From the present Commissioner.]

"August 27, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

A MEDICINE THAT NEVER DEBILITATES.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonful at the first attack, and it will soon disappear. For an overloaded stomach, or when food rises or sours, take the Invigorator after eating, and it will not prove disagreeable or oppressive. For Heartburn, Palpitation, or Difficult breathing, take a tea-spoonful once or twice daily. For Loss of Appetite, Languor, or Listlessness, the medicine is invaluable. It will restore the appetite and make the food digest well. Nightmare, take a a teaspoonful on retiring, and the demons of dream-land will all be fairies. After eating a hearty dinner, take a dose of Invigorator, and it will relieve all oppression or fullness. The Invigorator is a Liver Remedy of unequalled virtue, acting directly on that organ, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

We know there is nothing now before the American public, prepared with such skill by a scientific man, particularly for diseases of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the world, simply because it rests on its own merit. To convince all by trial that it is all that its proprietors claim it to be, if any of our readers are suffering from any such diseases as are described in Dr. Sanford's advertisement, we know of no remedy that will so surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver, Stomach and Digestive organs. It came to us with so many testimonials in its favor that we have noted its effects in some of the worst cases of continual debility, caused by deranged liver, and in every instance the effect was to relieve or give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always have been credulous about cures by patent medicines, but we are convinced that this medicine, for family use, is not overrated by the host of recommendations it has. Our advice is, for all troubled with Indigestion, Debility or Bowel Complaint, to get a bottle and try it, our word for it, relief will be experienced.

Blessings to the Invalids who use Dr. Sanford's Invigorator, for it will relieve them of their pains as soon as it is taken into their stomach. Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away, as daylight will banish darkness,—of this there can be no doubt to those who try it, for it carries conviction with every dose taken. Another evidence is the thousands of certificates from those who use it, or have been cured by it. Try one bottle—if it does not benefit, then we are mistaken.

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it *does* cure consumption, and they now use it in their practice as a standard and sure remedy.

There is no remedy equal to it in building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercle in the lungs, and it is as *safe* as it is *certain* in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask. Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to *arrest* the disease, and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result, a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the hurtful matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respitory apparatus, true to a law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

Prices—One box $3,00; three boxes, ordered at one time, $8,00, half dozen, $14,00; one dozen, or any number greater, at the rate of $2,00 a box.

The postage in the United States not over 3000 miles, is fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

LINCOLN'S

WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Radical Regenerator,

Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by *one* person would, through recommendation, result in an eventual sale to many.

DR CULVERWELL's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully.
